The Medical Device & Manufacturing Show is Feb 8-10, 2011 in Anaheim, CA— Rose will exhibit in Booth # 533. [Click here to register](#)

Rose Electronics to present “Understanding Battery Regulations and Safety Issues” in the [Innovation Briefs Theatre 3](#), Booth # 5293 at 1:05pm Tuesday, Feb 8 at the MD&M West show in Anaheim

### Technology Update: Cold Temperature reduces run time

The colder the operating temperature of the battery pack, the more the voltage drop occurs, which translates into lower capacity and therefore lower run time. The problem is exacerbated at higher drain rates.
